Christian Academy**

## Little Blessings Daycare and Preschool

Our daycare exists to provide a loving, caring environment for your child. Children have fun learning through participation in group time, multi-sensory learning centres, theme related activities, Bible stories, music, art, and sports.

## Preschool | Full & Part Time

Our early childhood program focuses on Kindergarten readiness. It places importance on creating a positive start to education in a strong Christian based environment, through hands-on active experience. Children learn pre-math and reading skills, social skills, and team work.

*VCA is a fully licenced Daycare and Preschool  
by the Province of New Brunswick*

*Educating the mind, Nurturing the soul,  
and Influencing the heart.*

## Elementary

VCA's multi-sensory Kindergarten curriculum combines both phonic and whole word reading. Through our literacy program, our young authors develop a love of reading and writing. Mathematics is hands on and encourages children to make connections to the world around them. Grades one through six offer a comprehensive curriculum that corresponds with the stages of a child's development.

## Middle and High

Middle and High School at VCA is a thriving community. The curriculum challenges students intellectually while teaching independence and cultivates critical thinking, communication, serving, leadership, and teamwork.

## Teachers Inspire

Dedicated and qualified teachers strive to model the love of Christ who care about each student and create a safe and compassionate learning environment for all.
